Raylase announces its presence at Formnext with the release of a white paper

RAYLASE wants to focus on presenting its comprehensive solutions to industry experts. Machine manufacturers, integrators and OEM can get an initial taster in the new AM white paper from RAYLASE, which is available for download now from <http://bit.ly/2QM6d1g>.

*"In this white paper, and at formnext 2018, we will be demonstrating the comprehensive range of options that RAYLASE can offer machine manufacturers to help them meet the challenges they face", explains **Wolfgang Lehmann**, Product manager at RAYLASE. "Of course we want to present our technologies with the AM-MODULE NEXT GEN and the SP-ICE-3 control card, but above all we want to provide answers to the important questions posed by machine manufacturers, OEM and integrators: What can RAYLASE do for me? What*
