

RAYLASE at PHOTONICS WEST 2018

Wessling, Tuesday, January 23 2018 – The RAYLASE Group is exhibiting at "PHOTONICS WEST", the world's largest photonics technology event which takes place from January 30th to February 01st, 2018 at the Moscone Center in San Francisco, USA.

At the 2017 Photonics West **RAYLASE** introduced **RAYLASE Laser Technology Inc.**, founded in November 2016, to the conference participants. Philipp Schön, Ph.D., CEO of RAYLASE Group explains: "By adding Steven Krusemark to our team we were able to win an experienced colleague from the laser industry to our company. With Steven Krusemark as President and CEO of our US subsidiary located near Boston, Massachusetts, we are very well positioned for our clients in the Americas, consistently pursuing our strategy of customer proximity and direct personal service. This year, too, we are particularly interested in expanding the network of **RAYLASE Laser Technology Inc.** and further intensifying the relationship with our existing partners."

RAYLASE invites all attendees to visit us in the **North Hall, at booth #5157.**

About RAYLASE GmbH

RAYLASE offers high-precision components for fast deflection and modulation of laser beams. These comprise top-quality optical elements, galvanometer scanners and control electronics with an intuitive software interface. Customers across the globe rely on the unique performance and reliability of our deflection units. These components form the cornerstone of industrial laser systems for scanning printed codes, marking textiles and surfaces, welding metal plates and plastics, and cutting and drilling semiconductor wafers and many other materials, including metal, plastic or glass. RAYLASE also develops and manufactures intelligent solutions with machine vision for the setup, automation and monitoring of laser processes and for additive manufacturing.
